

Dr. Mohammad Mahbub Ur Rahim

MBBS, MD, MPH

Public Health Specialist,

Researcher and Academician

A biopic on Mohammad Mahbub Ur Rahim, MBBS, MD, MPH, a Public Health Specialist, Researcher & Academician, would be a fascinating journey through his remarkable career. From his diverse roles as Coordinator in the Health Sector at TMSS to his tenure as Project Director in the Philippines, Chief of Operations in General Santos, and various academic positions in Bangladesh and the Philippines, his contributions in healthcare management, education, and research are truly inspiring.

His extensive work experience, language proficiency in English and Bangla, and certifications in global health essentials, data science, and contact tracing highlight his dedication to professional development. His hard skills in Microsoft Office, SPSS, Python, and data visualization tools further demonstrate his expertise in the field.

With a plethora of publications on health science research, medical journal challenges, cancer registry, maternal and child health services during COVID-19, and more, Rahim's impact on healthcare knowledge dissemination is evident. His participation in conferences, seminars, and workshops on public health, research methodology, and COVID-19's effects on livelihood and maternal healthcare further showcases his commitment to sharing knowledge and expertise.

His achievements as a best presenter at international conferences, plaque of appreciation as a resource person, and roles as a reviewer and master trainer reflect his standing in the healthcare community. The biopic could delve into his journey from a medical officer to a distinguished public health specialist, capturing the essence of his leadership, research acumen, and contributions to the field of healthcare.
